p-ISSN : 2319-6726

Contents :

Influence of Hardness on Heat-Treated Stainless Steel Printed Using Laser Powder Bed Fusion	01-09
Implementation of an Intelligent Security System Based on Face Recognition	10-20
Solubilization of carbamazepine in surfactant solutions with addition of sodium chloride electrolyte	21-29
Optimisation of potassium nitro humate synthesis from lignite	30-38
Impact of Customer Relationship Management	39-40
Use of GUI Model for Performance Evaluation Of Three Phase Induction Motor Based On No Load And Blocked Rotor Test	41-44
Comparative Thermal Performance Investigation of Box Typed Solar Air heater with V Trough Solar Air Heater	45-51
Future Prospects Analysis in Healthcare Management Using Machine Learning Algorithms	52-56
Enhancement of software quality by the use of various software artefacts to remove code smells	57-63
Ecological Fire Retardant for Wood Impregnation	64-71
A detailed investigation of Artificial Intelligence in Cyber Security	72-76
Meiotic studies in some population of Nicotiana plumbaginifolia from Bodh- Gaya	77-81
