

International Journal of Engineering and Science Invention

e-ISSN : 2319-6734

p-ISSN : 2319-6726

Contents :

Research on Short-Term Motion Prediction of Ore Transport Vessels Based on the LSTM Model	01-09
The Role of 5G and V2X Communication in Intelligent Transportation Systems	10-12
Initial Diagnosis for the Design of a Logistics Management Model to Control Food Insecurity in a Rural Area	13-25
Estimation of Ground Water Pollution in Some Areas in Srikakulam by Using Rs& Gis Techniques	26-28
Investment Appraisal and Financial Evaluation of Hydropower Projects	29-36
Standardization of the Academic Process of Laboratories in the Faculty of Engineering in the Industrial Engineering Program, and the Process at the Foreign Language Center of the Universidad Libre de Bogotá	37-44
Investigation of Electrical, Magnetic, Ferroelectric and Dielectric Behavior of Condensed Matter Systems	45-55
