

International Journal of Engineering and Science Invention

e-ISSN : 2319-6734

p-ISSN : 2319-6726

Contents :

Magnetic fluids based lubrication performance on deformable rough finite journal bearings	01-09
Creative Visualizer: A Web-Based Tool for Aesthetic Simulation Via Digital Object Wrapping	10-18
Next-Gen Farming: The Role of AI and ML in Sustainable Agricultural Innovation	19-29
Natural Disasters and Risk Mitigation	30-32
Wind Load Characteristics of Drop-out Fuses under Strong Wind Conditions	33-44
Predicting PM2.5 Levels in Seoul Using Random Forest Regression	45-48
From Stars to Cells: The Search for Life Through the Cosmic Life Viability Metric	49-60
Weighted composition operators from ℓ_p -Bloch spaces to Bers-Orlicz spaces	61-70
Analytical and Computational Assessment of Performance of Flat and Toroidal Drone Propellers	71-81
The Convective Heat Transfer Characteristics of the Array Fins Moving in the Direction of Movement	82-95

IJESI
Volume 14, Issue 6, June 2025
