Volume 9 ~ Issue 1, Ser-3, (January - 2020)

## Contents :

An Assessment of the Effect of Design and Efficiency of Babura and Doko Shelterbelts on Wind Speed And Moving Sand	01-08
Increasing Reliability and Availability in CBM System	09-13
Ramification of Temperature on Anopheline Populace	14-18
Study on the Role of Spatial Acoustics and Noise Control in Building	19-22
Optimization of Process Technology for Puffing Of Bengal Gram	23-30
An Enhanced Knowledge Engineering Framework for Knowledge Acquisition and Validation	31-37
Application of 3D Static Modeling and Seismic Attribute analysis for Reservoir Characterization over Sobal-field Niger Delta	38-43
A Critical Review on Numerical parametric studies to understand the Behavior of Piled raft foundation	44-49
Periodic Revisionof Low Stretch Kernmantel Ropes Used as PPE that is Based on the Change in Rope Diameter	50-56
Analysis Of Some Heavy Metalsconcentration Levels From Groundwater Sources In Leadmine Affected Areas Of Anka, Zamfara State,Nigeria	57-62
